SCHOOL BOOK BILL

Adopted By The House After Lively Fight.

Hickman Bill Killed in Senate Committee Made Substitute For Wells Bill.

Frankfort Ky., March 1.—The Hickman school book bill has been adopted in the house to-day, being substituted for the Wells bill after a lively discussion.

The bill, as amended by substitute bill was adopted by a vote of 66 to 20. Representatives Drewry of Louisville, and Knair of Lexington, voted with the Republicans against the bill. Representatives Worthington of Greenup, and Rogers, of Christian, voted with the Democrats for the passage of the bill. The vote was announced at 1:50 o'clock and the house immediately adjourned.

IN THE SENATE.

The whole session was devoted to consideration of the reports of the majority and minority branches of the state prison committee on the investigation of the charges made by Senator Kirk, of Johnson, against the state commissioners and officials of the Frankfort prison. The evidence taken by the committee was read in full.

On the taking of a vote on a motion to strike out the minority part of the report from publication of it, the Republicans refused to vote and broke a quorum. The matter was then made a special order for Monday next.

The Byron bill to authorize the governor to appoint a special judge in cases in which the regular judge cannot sit, and the parties fail to agree on a judge was adopted.

The Allen bill for counties owning turpines to condemn land for quarries was adopted.

He was 80 years old and is survived by a widow and two sons.

THROUGH HIS HEART

Went Bullet From Pistol in His Own Hands.

Well Known Ex-Toll-Gate Keeper Commits Suicide at His Home Near Elmo.

Mr. Lawson Smith, a well known citizen, committed suicide about 11 o'clock last Sunday morning at the home of his mother, at Elmo.

He was alone in his room, and lying across the bed, when he shot himself through the heart. Members of the family heard the report of the revolver and ran into the room at once, but when they reached the bed he was dead.

The supposition is that ill health was the cause of the act, as he had not been well for some time.

Mr. Smith was for a number of years toll-gate keeper on the Hopkinsville and Nashville pike, at Wood's mill, and was a man well liked by the public generally.

About eighteen months ago he was attacked by a lung ailment and bloodless died followed. Shortly thereafter he moved to South Christian, where he had since resided. He was about 50 years old and a bachelor.

The Governor Attempts to Remove Asylum Commissioners.

On Thursday Gov. Beckham issued an order "removing" three Democratic Commissioners of the Western Asylum and appointing successors as follows:

M. H. Carroll vice Chas. Knight; John Chilton vice J. B. Walker; Jas. D. Hill vice R. W. Ware.

The order makes a bitter attack upon the commissioners, the following intemperate language being used:

"Their incompetency and disregard of the duties of their offices make their retention inimical to the best interests of the Asylum. Such failure and neglect in the performance of their duties make their removal necessary."

The power of removing these officers is not vested in the Governor, the law requiring impeachment proceedings to be begun in the House, followed by a trial in the Senate. It is not unlikely that the matter will be taken to the courts.

18 YEARS

Must Robert Randolph Stay in the Penitentiary.

Appeared as Cool as a Cucumber on Ice When Verdict of the Jury Was Read.

The case of the Commonwealth against Robert Randolph, colored, was called in the Circuit Court last Friday. The examination of witnesses was concluded that afternoon and the case given to the jury a little after 4 o'clock Saturday.

During the trial of the case the court room was packed, mostly by the colored population. Sentiment was very high among the colored people against Randolph.

The killing occurred on the night of October 16th last at the Phoenix Hotel. Foard at the time was employed at the hotel as a waiter in the dining room. At the time he was shot he was in a room polishing silver after supper had been served. Randolph was in the habit of spending part of his time among the colored employees about the hotel, and had at intervals been employed there. On the evening of the killing Randolph had been driven from the premises by one of the colored women, who, it seemed, apprehended that he was going to cause trouble. Afterwards, as the evidence showed, he went back to the hotel, raised a window and entered the room where Foard was about his duties and shot him through the head. Foard died almost instantly.

A short time after the killing Randolph was arrested and committed to jail.

When the trial was called Attorney Allensworth, L. Yonts, Clifton Long and T. N. Hazelp appeared for the defense. Commonwealth's Attorney W. R. Howell was assisted in the prosecution by John Feland.

The gentlemen conducting the defense made a gallant stand for their client and did everything possible to get the prisoner out of the clutches of the law, but it was evident to those not interested that they were leading a forlorn hope. The killing of Foard has been generally regarded as one of the most unprovoked murders in the annals of crime in this section, and many supposed that the murderer would pay the penalty of his crime on the gallows.

Some are of the opinion that the "breaking" of the pistol with which the killing was done, when the cartridges fell to floor and were picked up by Randolph, was the only thing that kept him from stretching rope. It was on this ground that the attorneys based their defense and that the killing was by accident. Randolph claims that he

only intended to "scare" Foard and that he had no idea there was a cartridge in the pistol when he pointed it at Foard.

Randolph is about 20 years old, having been raised here. He has long been regarded by his own race as a very bad negro, and his reputation generally is quite unsavory. When the jailer carried him back to his cell after the jury had returned their verdict, after a short consultation, Randolph appeared perfectly indifferent. In fact during the trial he seemed indifferent, and the nonchalant air with which he would look over the immense crowd he seemed to regard himself as a hero among his race, instead of realizing that he was on trial for the highest crime on the calendar.

Attorney Allensworth, of the defense, conducted the trial in a most excellent manner, and his speech has been freely commented on and pronounced one of the best delivered in the court room in many a year. He was appointed by the court to defend Randolph.

From what we can learn there is no prospect of a petition for a new trial being filed, and we learn that Randolph is expected to let the verdict stand. It is rumored that the Commonwealth's Attorney has, since the trial, been furnished with evidence that would in another trial bring Randolph.

DEADLY DRAFT

Swallowed by Farmer Did Its Work Quickly.

Crofton, Ky., March 3.—George Lantrip, a farmer who lived about six miles West of here, committed suicide Saturday morning by taking carbolic acid.

He arose about 4 o'clock and went out to the stable and fed his stock. He then returned to the house, but remained only a short while, when he went out again. When found he was lying at the wood pile, near the door, face down, in an unconscious condition. His pocket book containing \$40 was lying on the ground by his side. An empty ounce vial, which had contained carbolic acid, was also found near by. He died about twenty minutes after being found.

Mr. Lantrip was about 55 years old and leaves a family.

The cause for the act of self destruction is not known. NITRAM.

ANNOUNCEMENT!

We are authorized to announce
MR. W. B. C. BELL,
in County, as a candidate for Railroad
Commissioner in the First Railroad District of
Kentucky, subject to the action of the Demo-
cratic party, Election Nov. 1903.

It is a bold defiance of public sentiment for a Governor to deliberately select the personnel of his administration from the gambling element and attempt to force out of office every good man who enters a word of protest against official corruption. The Kentuckian has endorsed the course of the recent board of commissioners of the Western Asylum, because in the first place they were right; because they were personally, with scarcely an exception, men of christian character and moral standing; because they represented the law and public decency and were honest, upright men. This community is practically unanimous in its approval of all that the commissioners did. They repeatedly asked the Governor to investigate the scandals that resulted in the quiet dismissal of many of the employees of the asylum, male and female. This was denied, but it did not take Dr. Ray long to find out that a weeding-out was needed. The Governor deliberately protected men in office after they had confessed to crime, committed in the asylum and had been indicted and punished. In protesting against this encouragement to lawlessness, the commissioners were upheld by the good people of Christian county almost to a man. The same contempt for the law that has characterized the Governor's tacit approval of gambling and llicitness in the Western Asylum, is shown in his "order" removing three of the commissioners without authority of law. The commissioners are not subject to removal and can only be removed by impeachment proceedings begun in the House and concluded in the Senate. This has not been done. The official order in itself contains a bitter, if not a libelous, attack upon the commissioners, Messrs. Chas. Knight, R. W. Ware and J. B. Walker, who are fairly accused of "incompetency and neglect of duty." Here where these officials are known, this display of malice under cover of an executive order, can only serve to still further reduce the number of friends the Governor has in this part of the State.

The Wilson bill to make the robbing of orchards, gardens and watermelon patches a felony, punishable by confinement in the penitentiary, is a righteous measure that ought to become a law. In some localities it is almost impossible to raise fruit, the depredations upon orchards being so bold that the thieves do not even wait for dark. The watermelon depredations make it necessary to build a penitentiary in every county, but the Wilson bill is a good thing that should be pushed along.

The Southwestern Passenger Association, embracing all railroads south of the Ohio and Potomac rivers and east of the Mississippi, has announced a rate of one cent per mile each way to the reunion of Confederate veterans in Dallas, Texas, in April.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh of the Bladder. This is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, it requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and restoring vitality. ternoon returned its first batch of
indictments, as follows:

Cole Vaughan, petit larceny.
Pig Brander and Charles Kay,
grand larceny.

Henry Leavell, petit larceny.
Malcolm Carothers, murder.
Cole Vaughan and Rodman Morgan,

The case of the Commonwealth
against John Wilson, charged with
shooting and wounding with intent
to kill, which was continued to the
next term, was recalled Saturday,

when the Commonwealth waived
the felony charge and Wilson entered
a plea of guilty to shooting in
sudden heat and passion. He was
fined \$100, Wilson wounded Pink
Wright and killed one of the lat-
ter's sons at a brand-name in North
east Christian about eighteen
months ago. He was acquitted of
the murder charge at the last term
of court.

The jury in the case of Bud
and Bert Knight, charged with shoot-
ing and wounding on common min-
ers near Empire last September, re-
turned a verdict of not guilty. The
defendants established an alibi.

Two separate indictments, charg-
ing a similar offense, were then
dismissed.

Another case, charging defend-
ants with confederating to intimi-
date, was ordered to be resubmit-
ted to the grand jury, but later
along Mr. C. H. Bush, one of the
attorneys for the Knight brothers,
made a motion to set aside the or-
der. This was done and the men
were released. They returned to
their homes in Hopkins county Sat-
urday.

The civil action of J. W. Mason
against W. R. Harris, was on mo-
tion of plaintiff's attorneys, dis-
missed.

The Jake Williams murder case,
was continued to the 12th day of
the present term.

This week will be taken up with
the disposition of civil matters.

AWFUL FATE.

Swam Around In A Tank of Nitric
Acid.

Last Thursday Frank Spencer,
a foreman employed by the Grassell
Chemical Company, of Harwood,
Ind., fell into a giant vat of nitric
acid. None of his fellow workmen
were near the scene of the accident,
and Spencer swam around in the
liquid for several moments before
his cries were heard. When assis-
tance came and he was dragged
from the vat his clothes fell from
him with pieces of flesh. He suf-
fered intense agony, and, though
there is not a place where the acid
had not eaten into his flesh, he is
still alive.

"DOING VALUABLE SERVICE

To Country," Is Gen. Gordon,
Says An Exchange.

An editorial in the Augusta, Ga.,
Chronicle, says of Gen. John B.
Gordon, who lectures at Holland's
Opera House Monday evening,
March 10:

We venture the assertion that
Gen. Gordon can not in the halls of
Congress do his country more valu-
able service than he is doing, in in-
stilling into the hearts of thousands
of people, North and South, a high-
er appreciation of the gallant men
who fought under Grant and Lee, a
deeper veneration for American val-
or and unswerving fidelity, and a
warmer love and a lotter pride in
this great and reunited country.

Without a taint of disloyalty to
cherish the traditions of the South,
without a word of offense to the
champions of the Northern opinion,
he kindles anew the love of every
follower of Lee; he deepens the ad-
miration of every Federal survivor
for the military genius and manly
magnanimity of Grant; and he awakens in both a loftier patriot-
ism and more consecrated devotion
to "this nation," which, in the im-
mortal words of Abraham Lincoln,
"under God, shall have a new birth
of freedom, and that government of
the people, by the people, for the
people, which shall not perish from
the earth."

Miss Stone Says The Brigands Acted Kindly.

Some Details Of Her Captivity Lasting Over Five Months.

Salonica, Feb. 27.—Miss Stone and her party traveled on horseback from Strumitza to the nearest railroad station, a journey lasting five hours. The local missionaries and many of the inhabitants of Strumitza accompanied the party for some distance, singing hymns. Mrs. Talika's baby was carried in a blanket by a servant, who dismounted from his horse at the most difficult portions of the mountain road.

At the request of M. Gargullo, the Turkish Governor at Strumitza returned to the women the cloaks and garments with which the brigands had supplied them, and of which the Governor took possession last Sunday. The women intend to keep these garments as mementoes of their adventure.

Miss Stone says she duly received all letters Mr. House sent her during her captivity. Upon one occasion she sprained her knee by falling through a trapdoor in a dark room. She was Mrs. Talika's only attendant at the birth of the latter's baby.

Miss Stone also says the brigands always treated them well. They built a hut for the prisoners on the mountain, provided horses for them when they traveled and carried Mrs. Talika's baby whenever they were allowed to do so. The brigands never came into contact with the troops, although the party was obliged to halt a few times while, on false alarms, Miss Stone's captors made preparation for action.

The brigands especially asked the women to convey their congratulations to M. Gargullo, Mr. Peet and others for the ingenuity displayed in the payment of the ransom.

As the party from Strumitza reached the top of the Chipeli Pass, nearing the railroad, the travelers were surprised by the sudden appearance of M. Talika, and there resulted an affecting meeting between husband and wife. M. Talika was then presented with his baby.

Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES OF LIME & SODA

will generally correct this difficulty. If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

La Grippe Quickly Cured.

"In the winter of 1898 and 1899 I was taken down with a severe attack of what is called La Grippe," says F. L. Hewett, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic, and I have never since been troubled with Grippe." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack of pneumonia. It is pleasant to take, too, which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by all druggists.

After the reading of the minutes the President called for the reports of officers and committees. The Treasurer answered with a full report of everything that had fallen within his line of business since she had taken the oath of office. We hope that other officers will profit by the example which she has set.

Since there was no new business to be discussed there was a longer time than usual for the programme, which was the first of its kind which we have had.

Nearly every member answered to her name by reading an article about some event of general interest. Judging from the good beginning, we think that these programmes will be a source of much good.

BOWLING RESIDENCE

Burned Thursday Night, Together With Its Contents.

Mrs. Sallie Bowling's residence, situated about four miles northwest of the city, on the Princeton road, was destroyed by fire last Thursday night about 9 o'clock. The occupants, Mr. and Mrs. Ewing Wood, were away from home visiting a neighbor and the origin of the fire is not known.

When the fire was discovered it had made such headway that nothing could be done to save either the building or contents.

The loss of Mrs. Bowling and Mr. Wood is probably \$3,500. The house was insured for \$3,000 and furniture \$500.

How to Cure the Grippe.

Remain quietly at home and take Chamberlain's Cough Remedy as directed and a quick recovery is sure to follow. That remedy counteracts any tendency of the grip to result in pneumonia, which is really the only serious danger. Among the tens of thousands who have used it for the grip, not one case has ever been reported that did not recover. For sale by all druggists.

Pneumonia Can Be Prevented.

This disease always results from a cold or an attack of the grip and may be prevented by the timely use of Chamberlain's Cough Remedy. This remedy was extensively used during the epidemics of la grippe of the past few years, and not a single case has ever been reported that did not recover or that resulted in pneumonia, which shows it to be a certain preventive of that dangerous disease. Twenty-three Years.

In view of the fact that the KENTUCKIAN has wound up its 23rd year of success, it is not out of place to say a word to its friends. The KENTUCKIAN has long since become a fixture of Hopkinsville.

All Newspaper Records in the City Have Been Broken by it.

No other paper ever published in Hopkinsville can point to a record of more than 20 years, with each year's business better than the one before. How many papers in that time have tried to run in Hopkinsville and fallen by the wayside? How many have failed to reach the goal?

An ocean cable 10,000 miles long would not serve the purpose for which it was designed if it fell short within twenty feet of the receiving-instrument.

It isn't the first end that counts. It's the last end. The start is nothing. Every contestant starts in a race, but how many finish? Almost any horse can begin in a race. Wish a few trials, ever an old plug may get away from the wire all right, but it's the coming under the wire for the last time that counts, it's being in the race to the finish that is alone valuable.

A great many things in this world are made to begin well enough, but they fall short.

The KENTUCKIAN as an advertising medium has never fallen short. As a news medium, occupying a field of its own choosing, it has for 20 years stood squarely upon its merits and succeeded

WHERE OTHERS FAILED.

Advertisers should bear this in mind. Money spent for Newspaper Advertising is an investment. It is not how much the advertising costs, but how large will be the returns. The mission of Newspaper Advertising is to Sell Goods. When the careful merchant has decided the important question as to the right medium, then, by attractive display advertising in that medium, he will inevitably increase sales. This result follows as surely as day follows night. The

Kentuckian

is the medium that pays, because it reaches the people. It has among its patrons advertisers who have been with it without a break for 12 to 15 years. It numbers the very best class of advertisers in their respective lines of business.

If you are not already a customer of ours, we want to make you one, and your advertising ONE OF OUR SPECIALTIES.

Newspaper advertising has become an indispensable adjunct to business. You need the advertising, we have the space to sell. Come less do business with each other.

And to the reading public, remember we cover the entire news field twice a week for only \$2 a year. At least one half of the news we give is in advance of other publications, because our facilities for gathering out-of-town news are equalled by none. If your time is out renew promptly. If you have never taken the KENTUCKIAN, try it for 1902.

Chas. M. Meacham.

A USE OF BOOKS.

Expands One's Outlook and Develops New Affinities and Interests.

One of the chief uses of books is found in their power of expanding the mental horizon and bringing one into relation with a vast range of interests that without them would be closed to us. A few persons may learn directly from Stanley or Nansen about his experiences or observations on his famous journeys, but in his books, what he saw and felt and thought is the property of us all. We plunge with one into the Dark Continent; we sail with the other into the frozen seas. The book serves the mind as the telescope does the eye. It may plausibly be said that the newspaper brings before us the story of the days as they pass, but it does not bring us into relation with the forces and tendencies and records of the past without which the present cannot be understood. Knowledge is not wisdom, but it is the raw material of wisdom. And beyond this, who can estimate the refining and strengthening influence that is brought to bear upon character by a familiarity through reading with noble sentiments and just interpretations of life. Let the English Bible, or Homer, or Shakespeare, or Wordsworth, or even a single gem like the thirteenth chapter of First Corinthians, or Keats' Ode on a Grecian Urn—which is probably the most perfect poem in English—sink into memory's imagination and affection, and one's whole mental outlook and temper are transformed. He has developed new affinities, and is swayed by new influences.—Boston Watchman.

JUNGLE FEVER.

Horrors of Disease Distracted the Mind of an Army Officer.

There is a sad story behind the resignation of Second Lieut. J. H. Bradford, Seventeenth Infantry, son of the late Lieut. Col. Bradford, of the Nineteenth Infantry, says the Washington Star. Young Bradford, who was ordered to the Philippines, disappeared from San Francisco in a mysterious manner about three months ago, and the war department was unable to secure any information as to his whereabouts until a few days ago, when he was found living in a boarding house in St. Louis, eking out a precarious existence as a teacher and wheelwright under an assumed name. A brief investigation showed that the young man had lost his mind, and his condition was attributed to the fact that he had a severe attack of jungle fever while serving in the Philippines nearly two years before. It was undoubtedly the recollection of that experience which led to his desertion at San Francisco and made him hide from the military authorities. He was placed in a detention ward at Jefferson barracks, St. Louis, for observation, and while there tendered his resignation. His friends endeavored to keep him in the army on the theory that his malady would yield to treatment, but Lieut. Bradford paid no attention to their appeals and insisted on the acceptance of his resignation. That action was taken by the president a few days ago and young Bradford is now out of the military service.

CURE FOR A STOOP.

Involved Both a Reminder and a Heavy Penalty.

A surgeon was consulted by a gentleman, who is now one of our first tragedians, as to the best mode of correcting a stoop which he had acquired. The surgeon told him that neither stays nor straps would do him any essential good, and that the only method of succeeding was to recollect to keep his shoulders back by a voluntary effort.

But the tragedian replied that this he could not do, as his mind was otherwise occupied. The surgeon then told him he could give him no further assistance.

Shortly after this conversation the actor ordered his tailor to make him a coat of the finest kersycene, so as to fit him very tightly, when his shoulders were thrown back. Whenever his shoulders fell forward he was reminded by a pinch under the arms that his coat cost him six guineas, and that it was made of very fragile materials; being thus forced, for the sake of his fine coat, to keep his shoulders back, he soon cured himself of the stoop.

The surgeon was much obliged to him for the hint and afterward, when consulted whether young ladies should wear shoulder straps, permitted them on condition that they were made of fine muslin, or valuable silk, for tearing which there should be a forfeit.—Brande's Journal.

COLORED MEN

Scuffle Over Pistol and One of Them Killed.

Slayer Held for Manslaughter and Grand Jury Will Investigate at Once.

Adam Coleman shot and instantly killed William Walthrop on the farm of Mr. W. D. Summers, five miles West of the city Saturday night. Both men were colored farm hands. Shortly after supper Coleman got out his pistol and was examining it when Walthrop grabbed the weapon and a scuffle ensued, during which the pistol was discharged. The bullet took effect in the man's heart and he fell dead.

Coleman claims that the killing was purely accidental and he made no effort to escape. Coroner Allensworth went out Sunday and held an inquest. Coleman was held over on a charge of manslaughter and the coroner delivered him up to the jailer Sunday afternoon.

The grand jury will look into the case this week.

Mr. Barton McEuen, being the only male performer on the piano, made a decided hit. His playing shows the magic touch of a natural musician.

The imitative readings of Miss Edmundson were always met by hearty applause. As an imitator of the negro dialect, she is unequalled among amateurs.

Also the singing of Miss Lula Boales deserves special mention. Although very young, her voice has the clearness and roundness not often heard among experienced singers.

The entire program was exceedingly well rendered and all performers deserve the highest credit.

On account of the large number of members of the college literary society, Prof. Kuykendall suggested a division. This was made last Saturday night. The seniors elected the following officers: J. Following are the officers of the junior section: H. West, president; G. Bailey, secretary; Roy Cullum, vice-president; John Fry, marshal; F. Filer and B. Mathews, critics.

The two divisions will meet separately every Saturday night.

No better school anywhere.

We have four of the very best teachers of experience, who are graduates of the very best colleges in the South.

You can get no better, no more thorough courses anywhere. We are working for our reputation, hence it is to our advantage to thoroughly prepare our students and place them in good positions.

We are connected with three Employment Agencies in other cities and are having many more calls for book-keepers and stenographers every week than we can possibly supply. All you have to do is to take a thorough course with us, and the consequences will take care of themselves.

Our tuition is lower than anywhere else. We have a good boarding house to take all our students at \$8 to \$10 a month. This school is permanent. Write for Catalogue.
